only 17.15% preferred prabhag system. In all 12.54% citizens do not have an opinion on the issue.

**SPEAKING FOR CITIZENS**

When asked 'Which system offers better opportunity for a worker to serve people?', again 71.44% respondents said the forward system was more suitable. On the other hand, 17.37% citizens preferred prabhag while 11.19% did not give any opinion.

'Which system caters best to the people?' saw 69.86% voting in favour of the forward system while 15.09% preferred prabhag while the remaining 15.05% did not respond to this question.

The survey was carried out between May 16 and 22 by 43 students and 15 teachers. A total 8,050 citizens from a cross section of the city were interviewed. The survey was conducted under the guidance of Rajkumar Tirpude by principal Keshao Patil, professors Hunge and Roshan Gajbe.

Initially, the forward system was in all municipal corporations in the state which was replaced by the prabhag system. There was a switch back in 2006 and in the coming 2017 elections a system of prabhag consisting of four wards is in the offing.
